Profile Summary

I am a full stack web developer and designer. Also WordPress Expert. Along with studies, I have taken courses in various institutes and developed skills in this sector and have been doing so. I have been working in this sector for 4 years. I have worked on many local projects so far and also worked in two USA agencies. I have served my clients with my skills and tried my best to solve any of their problems and succeeded. I have learned, taught and continue to learn a lot from my clients and my previous workplaces. I am constantly practicing alongside work to develop my skills. I will try my best to work in this sector in my future and will be committed to provide the best service to the clients.

Work Experience

Senior Web Designer   2020 - 2023
Seota Digital Marketing | SEO - Web Design - WordPress - B2B ·
Contract

I worked here as a senior web designer. I spent the best working hours of my life here. I have learned a lot from here which will help me in my future work. Here I have worked with many clients and ensured them the highest level of service. I believe that the learning and skills gained from here will help me a lot in the future.

Full Stack Web Develope
Web Devz · Part-time   2021 - 2022

I worked as a full-stack web developer at my former agency for three years. My role involved designing and developing dynamic web applications, collaborating with cross-functional teams, and ensuring optimal user experiences. I gained expertise in various technologies, including HTML, CSS, JavaScript, React, Node.js, and databases like MySQL. My agency's fast-paced environment honed my problem-solving skills, and I successfully delivered numerous client projects on time and within budget. I also contributed to optimizing website performance and implementing security measures. Overall, my tenure at the agency enriched my technical proficiency and teamwork, preparing me for future challenges in web development.
